DETAILED ACTION

Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 1-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kunzmann et al. in view of Sato et al. (6,778,797). Kunzmann et al. teaches a clipped ac input for a charging roll. Kunzmann et al. does not teach a non-contact contact roll.

Sato et al. teaches a non-contact roll 14 for charging (column 8, lines 55-63). The roll has a resistance discussed in column 5, lines 61-65. It would have been obvious to one of ordinary skill in the art at the time the invention was made to use the teaching of Kunzmann et al. with a non-contact roll such as taught by Sato et al. to reduce strobing (Kunzmann et al.; column 3, lines 5-9).

Response to Arguments

3. Applicant's arguments filed 3-10-2005 have been fully considered but they are not persuasive. Applicant argues that Kunzmann et al. does not teach a roll spaced from a surface to be charged and Sato et al. does not teach a clipped oscillating voltage signal. However, the examiner does not recite that these references teach what applicant argues they do not. One skill in the art would combine the non-contact charging roll taught by Sato et al. with the strobing reducing method taught by Kunzmann et al.

Thus, the claims remain rejected as discussed above.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Contact Information

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Quana M. Grainger whose telephone number is 571-272-2135. The examiner can normally be reached on 8am-6pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Arthur Grimley can be reached on 571-272-2136. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
